

GENTLE IRON FORMULA

An Iron Dietary Supplement Containing Vitamin C, Vitamin B12 and Quatrefolic® 5-MTHF*

• **Gentle Iron Formula** is a dietary supplement that provides iron in a highly absorbable form.

Recommended to support:

- Athletes
- Red Blood Cell formation
- Hemoglobin production
- Menstrual
- Energy

• **Gentle Iron Formula** is a formula from Nutritional Frontiers with enhanced bioavailability - The form of iron in this vitamin supplement is highly absorbable, and does not induce iron-related digestive distress or free-radical problems.

• About Iron

Iron is an essential micronutrient. Essential used in this way means that the body does not produce the nutrient; micronutrient means that the body only requires tiny amounts to function. The most important function of iron in the body is the production of hemoglobin and myoglobin (the form of hemoglobin found in muscle tissue) and the oxygenation of red blood cells. Iron is the mineral found in the highest amounts in the blood. It is essential for many enzymes. It also oxidizes toxins in the body such as formaldehyde, alcohols, phenols and formic acid and is important for growth. Iron is also required for a healthy immune system and for energy production.

• Iron and deficiency

Various iron deficiency anemia's are quite common in the population in the United States, especially among child bearing women and adolescents. Iron is absorbed poorly from dietary sources, especially if there are even marginal deficiencies of Vitamin C, B Complex Vitamins, transfer factors and other nutritional requirements. A deficiency in iron can lead to a serious reduction in energy and performance, both during intense shortlived exercise as well as during longer endurance activities.

• Energy Support

Synergy is a key factor in iron absorption and utilization. Hemoglobin levels are better maintained in the presence of Vitamins C, Folic Acid and Vitamin B12 in the methylcobalamin form. Iron bis-glycinate is an amino acid chelate of high assimilation that has been combined with Vitamin C, Folic Acid and Vitamin B12 to support proper maintenance of blood hemoglobin levels.

Supplement Facts

Serving Size: 1 Capsule

Servings per container: 60

Vitamin C (as Ascorbyl Palmitate)	100 mg
Folic Acid	400 mcg
Vitamin B12 (as Methylcobalamin)	400 mcg
Iron (as Fe Bis-Glycinate)	30 mg

Other Ingredients: vegetable cellulose (capsule), rice flour, vegetable stearate.

• **Suggested Use:** for adults 18 years and older: As a dietary supplement, take 1 capsule daily, with meals. Do not exceed more than 1 capsule daily unless directed by your health care practitioner.

• **Warning:** Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under the age of 6. Keep this product out of reach of children. In case of accidental overdose, call a doctor or poison control center immediately. If pregnant or nursing, consult your health care practitioner before taking this product.

• **Caution:** Children under 18 years should not take this product unless recommended by a physician. If G.I. upset, diarrhea or constipation occurs discontinue use and consult your physician. Don't take product more than 3 months unless directed by a physician.
